

Cody Summers

Software Engineer

Atlanta, GA | (404)-353-8281

github.com/csummers77 | [linkedin.com/in/cody-summers77](https://www.linkedin.com/in/cody-summers77) | summerscody95@gmail.com

My passion for programming started 8 years ago in C# and C++ when I used these languages to create console applications for modified gaming. This led me to pursue a career as a web developer which has been life changing. My hunger to learn and advance my knowledge has taken me to enroll in DigitalCrafts' full-time immersive coding bootcamp in order to gain professional skills, learn new languages and technologies to accelerate my development skills. Currently, I'm seeking job opportunities in the Greater Atlanta area.

Software Skills

- ❖ Python, Node.js, Express, React, Redux, JavaScript, Bootstrap, CSS, HTML, jQuery, mySQL, Git, AWS, Apache, Linux, PostgreSQL, C++, C#

Education

Central Piedmont Community College | Diesel Mechanical Engineering | Charlotte, NC June 2015 - March 2016

DigitalCrafts | Certificate in Web Development | Atlanta, GA November 2018 - March 2019

- ❖ Software engineering training program covering full-stack development including JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL

Software Development Portfolio

Domestico | dom.cody-summers.com | <https://github.com/csummers77/Domestico> January 2018

- ❖ 4-person development team building a product where users can add roommates to be able to split bills and help money management
- ❖ Responsibilities included design/assembling full mobile-responsive layout and routed info being passed from the database
- ❖ Built with Express generator, Node.js, EJS, HTML, CSS, Bootstrap, JavaScript

DjOnTheGo | cody-summers.com | <https://github.com/csummers77/DjOnTheGo> January 2018

- ❖ 3-person development team building a program that currently supports playing multiple mp3 files from a manually created playlist by fading out the song currently playing and fading in the new song to be played
- ❖ Responsibilities included finding songs with same beat per minute and designed the spinning record using css animation and JavaScript
- ❖ Built with HTML, CSS, Bootstrap, JavaScript, Fontawesome

Space Game November 2018

- ❖ Repository: <https://github.com/csummers77/SpaceGame>
- ❖ Built with python 3.7

Memory Game December 2018

- ❖ Repository : <https://github.com/csummers77/MemoryGame>
- ❖ Class starter project learning jQuery
- ❖ Built using basic HTML, CSS, JavaScript

Professional Work Experience

Machine Operator | ECI November 2016-2018

My responsibilities were to run diagnostics on machines when components failed. Then I would replace the sensors and continue to troubleshoot all the problems until the problem was solved. Fixing the machines required a special computer software that I personally had one on one training with.

- ❖ "Additional information regarding prior work experience can be delivered upon request."
